Message

Dear Colleagues,

Knowledge has to be improved, challenged, and increased constantly, or it vanishes. - **Peter Drucker**

We are proud to announce JIC 2015 (January 23-25, 2015) in Ahmedabad, India.

Learning is a continuous process and it is our endeavour to match your expectations each year.

JIC being held successfully from the last 10 years (formerly known as CIMS CON) has been an attempt, to share knowledge and learning amongst the medical fraternity and also to create a forum of newer ideas, exchanges and cooperation. The aim has always been to bring to you'll the latest and best in terms of topics and faculty. And your response has always been overwhelming.

JIC 2014 had a stupendous attendance of over 2000 delegates.

JIC will feature over 100 National & International faculty and over 200 lectures to provide an intense educative experience. Experts from all fields will deliver academic insights -discuss and learn about the latest techniques, updates, research and trials to allow you to turn this information into actions that will improve the patients' quality of life.

Despite advance in medicine and technology, health care regularly fails in its fundamental job of reliable delivery. In the face of increasing complexities, physicians can no longer guarantee efficient, high quality care. Fixing health care will require a radical transformation, moving from a system organized around "individual physicians" to a "team" based approach focused on "patients". Doctors will be central players in the transformation in acknowledging and adopting the team based approach for a complete health care delivery to all patients.

This year we also announce an Abstract/Poster competition for MD (Medicine) students, the details of which are overleaf.

Bringing together the entire healthcare community, JIC 2015 will provide you with a richly educational experience and an international platform for expression.

JIC is held in Ahmedabad, one of the fastest growing cities of India. Located on the banks of river Sabarmati, Ahmedabad is richly endowed with architectural marvels of Islamic, Hindu and Jain Heritage.

We heartily invite you to the Conference for an extensive educative curriculum and to soak in the city's energetic ambience and marvellous hospitality.

Regards,

Dr. Keyur Parikh
