FROM DESK OF ORGANIZING COMMITTEE

Dear Friends,

Hope you are in good health.

“Only those years that are passed uselessly make you grow old. A year spent uselessly is a year during which no progress has been accomplished, no growth in consciousness has been achieved, no further step has been taken towards perfection. Consecrate your life to the realization of something higher and broader than yourself and you will never feel the weight of the passing years”-*The Mother, 1958*

First of all, we would like to thank you for your immense support and active participation in JIC every year. With each passing year, JIC has been strongly identified as a great scientific learning experience.

We are glad to announce that our annual **17th International Conference JIC-2021** is scheduled during March 12-14, 2021 (www.jicindia.org) We all know that scenario is quite different this year due to COVID-19. But with our strong commitment to academics we are determined to go ahead creating a smooth system to do a virtual and/ or physical conference as per the scheduled dates. Lot will depend on the disease pattern and government guidelines prevailing at that time.

JIC-2021 has an exhaustive and comprehensive scientific agenda with a strong list of eminent speakers from all over the globe.

JIC-2021 is held in Ahmedabad, one of the fastest growing cities of India. Located on the banks of river Sabarmati, Ahmedabad is richly endowed with architectural marvels of Hindu, Islamic and Jain Heritage.

We look forward to meeting you at JIC-2021
