

Quality Objectives

- ◆ Firmly hold our current status of one of the leading clinical laboratory that operates a quality system, is technically competent and is able to generate clinically valid results for all the testing facilities.
- ◆ Pursue academic excellence through various education programs in the fields of Pathology & Microbiology
- ◆ Fully comply with International Standard ISO 15189:2012.
- ◆ Tests will always be carried out in accordance with stated methods and client's requirements.
- ◆ Continuously endeavour to build and maintain reputation of our Clinical Laboratory being absolute trustworthy in eyes of our valued Patient/Clients.

Choose your Test Profile

- ◆ Basic body Profiles(screening/complete)
- ◆ Executive Body Profiles(male/female)
- ◆ Advance Body Profiles(male/female)
- ◆ Diabetes Profiles(Routine/Basic/advance)
- ◆ Extended Lipid Profile with/without Homocystine
- ◆ Liver Function Tests
- ◆ Renal Profiles(Basic/Advance)
- ◆ Cardiac Profiles(Basic/Advance)
- ◆ Arthritis Profiles(Basic/Advance)
- ◆ Anaemia Profiles(Basic/Advance)
- ◆ Allergy Profiles
- ◆ Tumor Markers(male/female)
- ◆ Antenatal Profile
- ◆ BOH Profile & PCOD Profile
- ◆ Infertility Profiles(male/female)

- ◆ DIC Profile
- ◆ Thrombocheck Panel
- ◆ Vasculitis Profile
- ◆ Collagen Profile
- ◆ Auto immune Hepatic Profile
- ◆ Hepatitis marker Profiles
- ◆ Myeloma Panel
- ◆ Pediatric Infection Screening
- ◆ Metabolic Screening for neonates
- ◆ Intensive Care Profile
- ◆ Pre & post angio Profiles
- ◆ Pre- operative Profiles
- ◆ Biopsy,Cytology& Immunohistochemistry
- ◆ Any other investigation

CIMS Pathology & Microbiology

(Accredited by National Accreditation Board for Testing and Calibration Laboratory)

YOUR ACCURATE DIAGNOSTIC PARTNER

Modern Facilities | World Class Care | Reasonable Rates

One step solution for all types of Laboratory Investigations

PATHOLOGY

CIMS Pathology is state-of-the-art clinical laboratory offering all kinds of pathology investigation ranging from basic tests to specialized tests and to the tertiary ones. This includes work ups and procedures related to Hematology, Clinical pathology, Biochemistry, Hormonal immunoassays, Immunofluorescent assays, Serology, Histopathology, Cytology, Immunohistochemistry, Frozen sections, Bone marrow procedures & reporting and Immunophenotyping.

CIMS Pathology also provides services for Genetic assays, Metabolic screening for new borns, work ups related to infertility and many other investigations. Laboratory also conducts clinical trials and research projects for all consultants.

The Department is well equipped with high end fully automated analyzers and aided by highly skilled, qualified laboratory personal & experienced pathologists which leads to high quality assurance.

CIMS Pathology follows high quality standards and is accredited by National Accreditation Board for Testing and Calibration Laboratory (NABL). By timely delivering accurate and clinically relevant results, CIMS Pathology strongly supports clinicians in diagnosing and treating their patients. Services are also available for out door, walk in patients. Customer friendly ambience aids to their experience to a great extent.

MICROBIOLOGY

CIMS Microbiology is one of its kind offering an overall microbiology workup from basic stains and basic cultures to specialized stains including fluorescence stain and fastidious cultures with automated systems. The microbiology department offers drug sensitivity with automated system and MIC values. The Department is well equipped for conducting clinical trials and research projects for all consultants.

Cims Microbiology also provides services for complete TB work up from specimen to Diagnosis for all specimens which includes :

1. AFB Fluorescence study,
2. GeneXpert,
3. Line probe assay,
4. AFB culture (on automated MGIT),
5. Differentiation between NTM and MOTT,
6. Complete DST for MTB and NTM/ MOTT.

Experienced Microbiologists are available for regular patient interactions. With Services available round the clock, CIMS Microbiology stands strong to support the clinician.

CIMS Microbiology also offers state-of-the-art molecular microbiology with the high end fully automated gene sequencer.
